

Animal Management Centre – Askham Bryan College

Project Brief

The design and build of two new Animal Management Centres, a new external Wildlife and Conservation Area and Associated External Works including a large car park and bus station and turning point.

The development is the first phase of the college's forward development plan and comprises; an animal exhibit area housing over 100 species, student / visitor teaching zones, classrooms / seminar rooms / teaching space and staff offices.

Project Summary

Aspect 4 worked closely with the Employer, from the outset, to provide accurate cost planning and cost management services. Reports were provided on both the construction costs and also the project holistic costs, as requested by the Employer. The project was delivered to a very high standard and the client has provided excellent feedback on the use of the facility.
