

Foss Island Link Road – York

Project Brief

Phase one of new mixed use development involving the construction of a new link road to service the development site and surrounding area.

Project Summary

Approximately 1km of new link road construction, junction improvements and traffic lights to retail park and neighbouring industrial estate and York streets. The works involved major diversions with British Gas and NEDL and included new cycle route junctions, bus lanes, junction signals, new travellers park boundary wall, landscaping and acoustics barrier.
